EDUCATION

IIIT Naya Raipur

Bachelor of Technology in Electronics and Communication Engineering (ECE)

CGPA: 7.80/10

December 2021 – June 2025

EXPERIENCE

Flutter Developer | Flutter, Dart, Firebase, REST APIs

April 2024 – July 2024

Rabla

Internship

- Developed and optimized **Flutter** mobile apps using **Dart**, **Firebase**, and **RESTful APIs**.
- Implemented backend services and managed real-time databases with **Firebase**.
- Collaborated on frontend development, designing **responsive interfaces** and integrating **third-party APIs**.

Flutter Developer | Flutter, Dart, Figma to Flutter

August 2023 – November 2023

Codevue

Internship

- Designed multiple mobile app interfaces with **Flutter** and **Figma to Flutter tool**.
- Integrated multiple **APIs** that enabled **8 new functionalities**, significantly enhancing user experience and reducing app **latency by 30%**.
- Redesigned and optimized the app frontend, **boosting user interactivity and responsiveness**.

PROJECTS

EasyCart - An Online Clothes Shop App | Flutter, Dart, PHP, SQL, MySQL, XAMPP, REST API, GetX

State Management

[Demo](#) | [GitHub](#)

- **Designed** an e-commerce application using **Flutter/Dart** as the frontend.
- Built the backend with **PHP and MySQL**, using **XAMPP** Server for local development and testing.
- **Implemented** secure **user/admin** authentication and enhance search efficiency.
- **Integrated Imgur API** for product images, enhanced **cart/order** management by **4%** with **GetX**.
- **Tested** the app for cross-platform compatibility and **optimize** performance.

Portfolio Android App | Dart, Flutter, REST API, GetX State Management

[Demo](#) | [GitHub](#)

- **Created a cross-platform app** using **Flutter/Dart**, showcasing projects with organized tabs, light/dark themes, and responsive UI. Utilized **GetX** for state management.
- Integrated **REST API** for real-time content updates, **exception handling** for scenarios like no internet and invalid API responses and enriched the user experience with **animations**.
- Published app on **Google Play Store**, maintaining a **3.5-star rating** from around **20+** reviews.

SKILLS

Languages: C/C++, SQL, Dart, HTML, CSS, Python(Basic), Java(Basic), JavaScript(Basics)

Database: MySQL, Firebase, Hive

Frameworks/Technologies: Flutter, REST API, GitHub, Bootstrap, Machine Learning(Explore During Academics Project)

Developer Tools: Git, Mobile App Development, VS Code, Google Colab, Jupyter Notebook, MS Word, Google Sheets

RELEVANT COURSEWORK

- DSA
- Operating System
- Computer Network
- Internet of things
- DBMS
- OOPs
- Digital Image Processing
- Embedded System

ACHIEVEMENTS

- Achieved a **3-star** rating on CodeChef. ([Codechef](#) 🏆 - Rating : 1600+)
- Solved **1,000+** algorithmic coding problems on various platforms. ([Leetcode](#) 🏆 - Rating : 1600+)
- Achieved a **global rank of 225** in CodeChef Starters 129 Division 3 (Rated) April 2024 challenges.
- Secured rank in the top 50 in the **Intra College Coding contest** among **600** participants.
- Published or deployed **2 Android apps** on app stores like **Google Play Store** and **Indus App Store**.
- Ranked among the **Top 4%** in the **JEE-Mains 2021**.
- ([GFG](#) 🏆-Solved 200+ Problems), ([StopStalk](#) 🏆 Profile), ([HackerRank](#) 🏆Profile), ([Certificates](#) 🏆)
